SUMMARY

B.Tech IT student building end-to-end ML projects, from data cleaning and modelling to Streamlit dashboards. Seeking Data Science, ML, AI or Data Analytics internship and entry-level roles.

TECHNICAL SKILLS

Languages	Python, SQL, C++
ML & Modelling	Regression, Classification, Clustering, Random Forest, Decision Tree, KNN, K-Means, ANN, Model Evaluation
Data Analysis	NumPy, Pandas, EDA, Data Cleaning, Feature Engineering, Matplotlib, Seaborn
Libraries & Tools	Scikit-learn, Streamlit, Power BI, Jupyter Notebook, Git, GitHub, VS Code

PROJECTS

Smart City Analytics Suite
Python, Scikit-learn, K-Means, Streamlit

- Built a 4-module ML suite for **traffic management, crime hotspots, air quality and waste management**.
- Engineered features and trained **Random Forest** (predictions) and **K-Means** (cluster insights) models.
- Deployed results on an interactive **Streamlit dashboard**; versioned with Git/GitHub.

BHOOMI-AI: Land Acquisition Intelligence (SIH)
Python, Machine Learning, Team Project

- AI system that **flags land-acquisition projects at risk of delay** and explains key risk factors to officials.
- Developed ML prediction and risk-analysis components; integrating outputs into the main application.

Credit Card Fraud Prediction
Python, ANN, Classification

- Built an **Artificial Neural Network** classifier to detect fraudulent transactions, with preprocessing and evaluation.

Car Price Prediction
Python, Pandas, Random Forest Regression

- Predicted car prices from vehicle attributes using **Random Forest Regression** (preprocessing, training, evaluation).

Additional ML & AI Projects
Python, Pandas, Scikit-learn

- **Breast Cancer** (KNN), **Heart Disease** (Decision Tree Classifier), **House Price** (Decision Tree Regressor), **AI Work Automation**.

TRAINING

Data Science Summer Training
ADGIPS, Summer 2026

- Python, NumPy, Pandas, EDA, Scikit-learn; implemented regression, classification and clustering on real datasets.
- Built practical ML projects using Jupyter Notebook, Streamlit and Git/GitHub.

EDUCATION

B.Tech, Information Technology
2024 – 2028 (Expected)

Dr. Akhilesh Das Gupta Institute of Professional Studies (ADGIPS), GGSIPU | Currently in 5th Semester
